EXECUTIVE SUMMARY

Lead iOS Engineer and Mobile Architect with 13+ years of experience designing and delivering scalable, secure, enterprise-grade mobile applications across Healthcare, Insurance, E-Commerce, and Analytics domains — expert in Swift, SwiftUI, UIKit, Flutter, Clean Architecture, MVVM, CI/CD automation, and enterprise mobility solutions, with proven experience leading mobile platform modernization, scalable system architecture, and cross-functional engineering teams.

AI Engineer and Agentic AI Developer building autonomous, LLM-powered agent systems and multi-agent orchestration pipelines using LangGraph, CrewAI, AutoGen, the OpenAI Agents SDK, and Model Context Protocol (MCP) — applying AI System Design & Orchestration to real engineering workflows and driving AI digital transformation.

n8n Automation Specialist implementing AI-powered workflow automation and Generative AI integrations using OpenAI APIs and n8n orchestration workflows to improve engineering efficiency, reduce manual effort, and accelerate delivery.

Strong background in Agile, Scrum, SAFe delivery models, secure mobile architecture, and App Store deployment for enterprise-grade applications, with secure architecture built on OAuth 2.0, SSL pinning, encrypted storage, and HIPAA/GDPR-compliant authentication frameworks.

Apps & Portfolio: [Lingo](#) • [Hekma](#) • [myVisionTrack](#) • [Allstate Mobile](#) • [Aybiz](#) • [eVeroMobile](#)

TECHNICAL SKILLS

Mobile Development (iOS Engineer / Mobile Architect): Swift, SwiftUI, UIKit, Combine, Objective-C, Flutter (Dart), React Native, Swift Concurrency, Async/Await

Mobile Architecture & Design: Clean Architecture, MVVM, VIPER, Modular Architecture, Layered Architecture, SOLID Principles, Scalable System Design, Dependency Injection, Repository Pattern, Offline-First Architecture

iOS Frameworks & APIs: Core Data, SQLite, SQLCipher, HealthKit, AVFoundation, MapKit, Core Animation, RESTful APIs, GraphQL

AI Engineering & Agentic AI Development: Generative AI, Agentic AI, LLM Integration, Prompt Engineering, OpenAI API, OpenAI Agents SDK, CrewAI, LangGraph, AutoGen, MCP (Model Context Protocol), Multi-Agent System Design, AI System Design & Orchestration, RAG (Foundational), AI Workflow Automation

n8n Automation Specialist: n8n, n8n Workflow Automation, AI-Powered Workflow Automation, Process Orchestration, Custom Node & Webhook Integration, API-Based Automation Pipelines, AI Digital Transformation

Leadership & Delivery: Technical Leadership, Team Mentorship, Agile, SAFe, Scrum, Sprint Planning, Roadmap Ownership, Stakeholder Management, Cross-Functional Collaboration, Release Management

DevOps, CI/CD & Quality: Jenkins, Fastlane, GitHub Actions, XCTest, XCUITest, SonarQube, Automated Testing, Firebase Crashlytics, TestFlight, App Store Deployment

Security & Compliance: OAuth 2.0, SSL Pinning, Keychain, Secure Data Encryption, HIPAA Compliance, GDPR Compliance, Authentication & Authorization

Cloud & Backend: AWS (Basic), GCP (Basic), Azure (Basic), FastAPI, Go (Golang)

Tools & Platforms: Xcode, Android Studio, VSCode, Git, GitHub, Swift Package Manager (SPM), CocoaPods, Firebase, Jira, Confluence, Figma, Postman

LEADERSHIP & IMPACT HIGHLIGHTS

- **Accelerated engineering delivery by 35%** through reusable frameworks, modular architecture, and scalable mobile platform design as Mobile Architect.
- **Delivered enterprise-grade, App Store–approved mobile applications** with high performance, reliability, and security across healthcare, insurance, and enterprise domains.
- **Led modernization of legacy mobile platforms** for global healthcare organizations, improving scalability, maintainability, release velocity, and CI/CD automation efficiency.
- **Mentored and scaled cross-functional engineering teams** across multiple geographies, improving sprint execution, delivery consistency, code quality, and engineering standards.
- **Implemented secure mobile architecture using OAuth 2.0, SSL pinning, encrypted storage, and authentication frameworks** ensuring HIPAA and GDPR compliance.
- **Drove AI-powered workflow automation initiatives** as AI Engineer and Agentic AI Developer, using Generative AI, Agentic AI, OpenAI APIs, and n8n orchestration to improve engineering productivity and operational efficiency.
- **Translated AI System Design & Orchestration expertise into engineering practice** as n8n Automation Specialist, applying multi-agent orchestration patterns to real delivery workflows.

PROFESSIONAL EXPERIENCE

Lead iOS Engineer / Mobile Architect

Procyon Technologies (Client: Abbott, Hekma) — Chennai (Remote / Client Delivery) | 2025 – Present

- Lingo by Abbott App — Real-time glucose monitoring and wellness application delivering personalized metabolic insights and health analytics using continuous glucose monitoring technology.
- Hekma Open Square (Hekma) — Flutter-based healthcare marketplace platform connecting patients, hospitals, and clinical trial sponsors through secure, data-driven recruitment solutions.
- Applied Generative AI and Agentic AI integrations (OpenAI APIs, CrewAI, LangGraph, AutoGen, MCP) alongside n8n orchestration to automate engineering workflows and improve delivery efficiency.

Lead iOS Engineer

TruGlobal (Client: Genentech) — Bangalore | 2021 – 2025

- myVisionTrack App — Developed remote healthcare diagnostics platform supporting at-home clinical vision testing; integrated Apple Watch health analytics workflows for patient monitoring solutions.
- Reference Health Monitoring — Integrated Apple Watch health metrics with analytics dashboards to support clinical insights.

Senior Mobile Application Developer

Aybiz — Kuwait | 2019 – 2021

- Aybiz App (App Store) — Built and scaled an E-Commerce and business directory platform serving Middle East markets.

Senior Consultant (iOS)

Allstate — Bangalore | 2016 – 2019

- Allstate® Mobile App — Enterprise-scale insurance mobile application enabling secure claims management, policy access, billing, digital ID cards, roadside assistance, and driver safety services for millions of users.

iOS Developer

Artech Infosystems (Client: McAfee / Intel) — Bangalore | 2014 – 2016

- Personal Content Manager — Developed a secure cloud-based file sharing and synchronization application with cross-device encryption and secure mobile data management capabilities.

iOS Developer

Evero Corporation — Kochi | 2013 – 2014

- eVeroMobile App — Delivered a healthcare compliance mobile application enabling integrated patient care workflows, secure healthcare data management, and enterprise mobility solutions.

Consultant (iOS)

Visualbis — Chennai | 2012 – 2013

- IMSR (Is My Stuff Real) — Developed a business intelligence and analytics application supporting enterprise data verification, reporting, and mobile analytics workflows.

EDUCATION

- **Master of Computer Applications (MCA)** — Bharathiar University, Coimbatore | 2010
- **Bachelor of Science (Physics, Mathematics, Computer Science)** — Calicut University | 2007

CERTIFICATIONS

- **Master AI Agents** — OpenAI Agents SDK, CrewAI, LangGraph, AutoGen and MCP.
- **Build AI Agents and Automate Workflows with n8n** — LinkedIn Learning
- **Python Programming** — University of Michigan
